For employees who drive either a company vehicle or their own vehicle on the job, safe driving is a matter of occupational safety. Fewer collisions to company vehicles will help control insurance costs - and safe drivers lose less time from work because they avoid collisions. That is why a defensive driving training can benefit all employees... who have a driver's license. Defensive Driving Training is designed to teach your employees how to drive safely.

In this training program, through the use of visual aids and qualified instructors, will show your drivers how to avoid potentially dangerous situations. Classroom participation involves case studies and active discussion of real life situations, as well as identifying traffic hazards.

BENEFITS TO DRIVERS

- Prevent collisions,
- Save lives,
- Deliver cargo safely and on time,
